

字符串

字符串反转

1.

```
var str="asdadasf";  
console.log(str.split("").reverse().join(""));
```

2.

```
function reverse(str)  
{  
    if(str.length == 0) return null;  
    var i = str.length;  
    var dstr = "";  
    while(--i >= 0)  
    {  
        dstr += str.charAt(i);  
    }  
    return dstr;  
}  
  
var str = "abcdef";  
str = reverse(str);  
document.write(str);
```

删除指定字符

```
var str="aasfafwafaaa";  
var s=str.replace(/a/g, "");  
console.log(s);
```
